Additional proof points

- 1.5 million sq. ft. leather stock and 600K buckles available for uninterrupted production
- 1000+ SKUs and 500+ multi-brand outlets through Leather Plus brand experience
- Category capability across belts, wallets, bags, footwear and other leather accessories

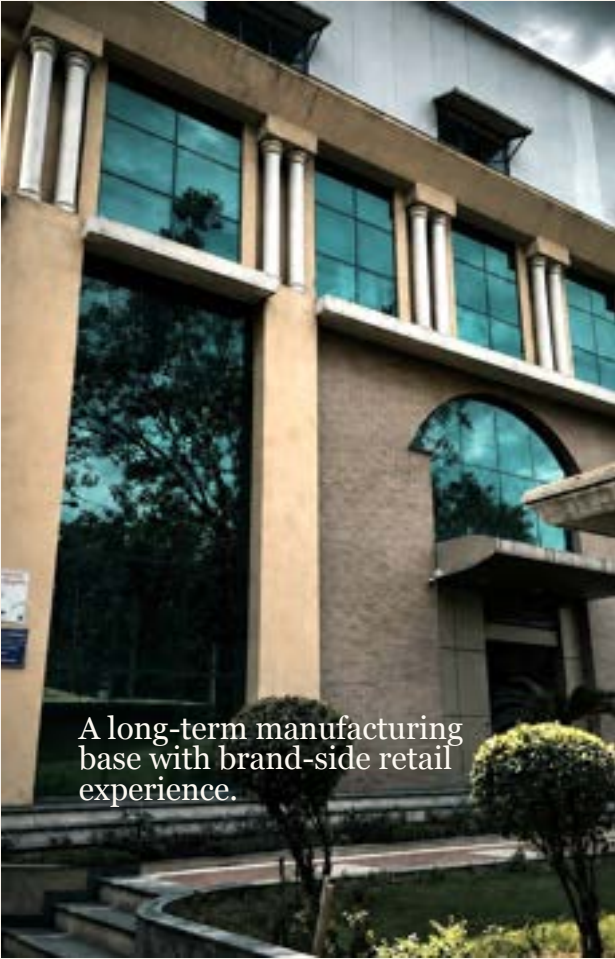

From domestic leather goods to export manufacturing

A 35+ year journey from leather belts to multi-category manufacturing for international buyers.

- 1989
Founded as a small manufacturing firm for domestic market customers.
- 1995
Moved into a larger manufacturing unit with Italian machinery.
- 1998
Started leather wallets and small leather goods manufacturing.
- 2002
Started export business with buyers in Europe and the Middle East.
- 2012
Set up footwear manufacturing with Italian machinery and molds.
- 2022
Expanded leather goods capability into handbag manufacturing.

Positioning today: Leather Plus as the main identity, presented with a manufacturer-first export partner.

A long-term manufacturing base with brand-side retail experience.

Buyer confidence built into every program

International buyers need capability, quality, compliance, capacity and responsiveness from a new supplier.

1

Raw material readiness

Ready leather and buckle stock supports faster sampling and continuity.

2

Product range under one roof

Belts, wallets, bags, footwear and accessories can be developed with a cohesive material story.

3

Italian machinery & infrastructure

Specialized equipment and 50,000+ sq. ft. working area for category-level production.

4

ERP-driven transparency

Proactive merchandising updates, open costings and structured order follow-up.

5

Responsible sourcing

LWG-certified tannery sourcing and REACH-compliant raw materials.

6

Flexible MOQ model

Scalable production for pilot runs and long-term assortments.

7

Brand-side experience

30+ years of Leather Plus retail experience helps commercial product development.

8

Partner mindset

Reliability, production flexibility and long-term buyer support.

A PARTNER, NOT JUST A FACTORY

Designed for long-term success with international buyers: product development, sampling, production, QC and dispatch coordination.

Product portfolio under one manufacturing roof

Core export-ready categories supported by private label, custom branding and buyer-specific collection development.

06 QC

The aim is simple: repeatable quality from sample approval to bulk production and final dispatch.

How we work with buyers

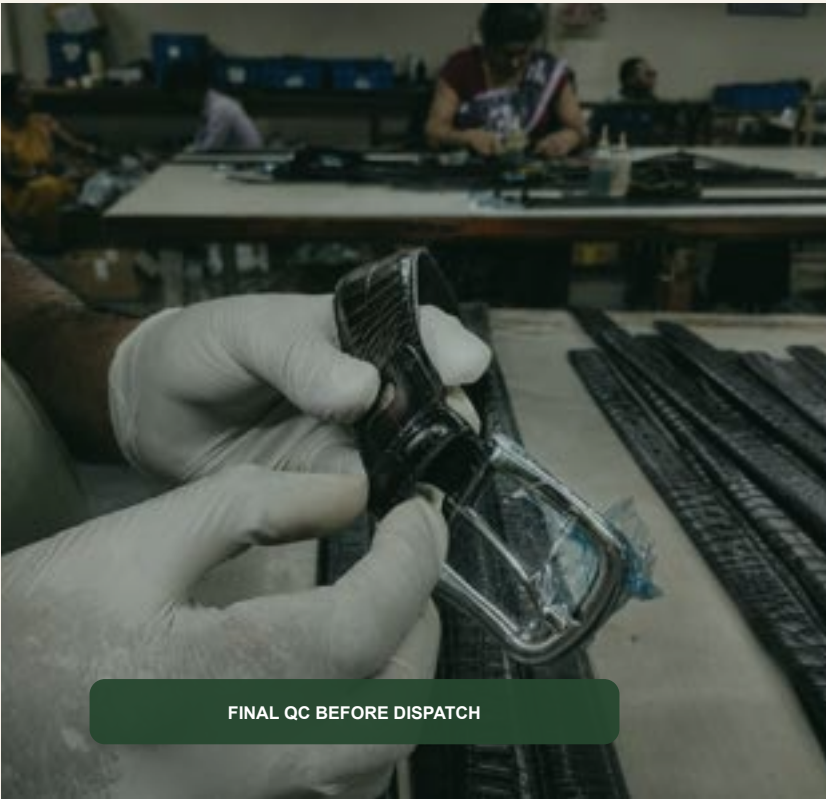

A structured workflow reduces uncertainty for buyers and keeps sampling, costing, production and dispatch aligned.

Transparent working supported by ERP-driven operations, proactive merchandising updates and open costings.

Quality control & testing

Buyers need suppliers who reduce risk. Quality is checked across material, construction, finishing, packing and dispatch.

FINAL QC BEFORE DISPATCH

- Raw material check
- Cutting & component check
- In-line production check
- Finishing & hardware check
- Final QC & packing check

Raw material and finished product testing can be arranged through globally recognized testing agencies as per buyer and market requirements.
